

4/20/2020: COVID-19 UPDATE: Sanitizing and Disinfecting our Facility

As part of our commitment to safety and the health of our residents we have hired a cleaning and disinfectant company called *Artemis Bio-Solutions* to sanitize our entire facility.

Artemis Bio-Solutions came into Job Haines Home on 4/15/2020 and 4/17/2020 and sanitized the apartments that are temporarily vacant in the assisted living portion of the facility. They will be coming back this week to continue sanitizing and disinfecting other parts of the building.

The cleaner used by *Artemis Bio-Solutions* is a non-toxic, bleach-free formula used in applications which require a deep cleansing. It is biodegradable, leaving only oxygen and water as a byproduct. It is ultimately very safe to be used in locations with larger populations of people.

We will keep you up-to-date as we continue to keep our facility safe for our residents and staff.

Again, we are committed to the safety of all residents.

From our family to yours,
Job Haines Home
